I just wanted to thank you for taking time to reassure me today about my standing with you and the organization. I appreciated the openness of the conversation and being able to acknowledge to one another that neither one of us is out to get the other. Change is certainly stressful and the past few months have seen no shortage of change and challenges for CPD and me personally. As I told you and Mr. Glascock (and several other people) if I were the Police Chief I would eliminate the single Deputy Chief position and add a fourth Assistant Chief. That is an organizational/operational decision and I want to reiterate it is not one I would take personally should that be the direction you ultimately go. I appreciate the opportunity we discussed to continue to serve as an Assistant Chief under that new structure.

I went over the IA's in my office today and believe I should be able to have the bulk of them completed and to you by the end of the week. Going forward if I feel I will need longer than a week to review a particular file I will communicate that with you promptly. Until we are able to transition to the digital system I will also note the date I actually receive the file. I am going to recommend others in the chain do the same (much like what we do when we note the date on the front cover that the file went into the chain for review).

I will plan on speaking with███████ , ███████ , ███ and███████ this week about the other organizational changes (movements to officer etc) as well unless I hear differently from you.

Thank you again for your candor today,

Jill

Thank you for being open to talk. I am happy to meet with people also. We can talk about it more today.

Geoff
